

# The Anne McLaren Fund

The Fund was set up by Anne's family and friends to commemorate her life and to promote her ideals. The income from the invested funds is being used to promote public and professional knowledge, study and research in:

- *Reproductive medicine*
- *Interdisciplinary work that engages with social and ethical aspects of science*
- *Work by those at an early stage in their careers*

- *Mammalian reproductive, developmental and stem cell biology*
- *Developmental genetics and epigenetics*

For information about making a donation, current donors and activities, visit the Gurdon Institute website:
