About the Gurdon Institute

The Gurdon Institute is a world-leading centre for research into the biology of development and how normal growth and maintenance can go wrong in diseases such as cancer. Many of our scientists have made pioneering contributions to the fields of basic cell biology, cellular reprogramming, epigenetics, and DNA repair.

Dates of Placement

16 July – 20 July

Placement Description

Area of the Gurdon Laboratory Research

General topic area Neuroscience, Alzheimers Disease, pluripotent stem cells

About the team Our group is primarily interested understanding the biological basis for neurodegenerative disease, in particular Alzheimer’s. We use a model system which is built upon turning human pluripotent stem cells (iPSCs) into cortical neurons so that we can study the cell biology of the disease.

Main model(s) used Human iPS cell culture

What will you do? Spend 3 hours in the lab each day, learning and practicing techniques such as cell culture, immunostaining and protein analysis.

You will attend four, 2-hour interactive workshops on topics such as confocal microscopy. These workshops will be led by scientists and specialists in the field.

Additionally, you will read and analyse a research paper and you will present it and your experiences to other students.

You will also have the opportunity to network with PhD students and scientists, talk to them about their jobs and lives and find out how research is done in the lab.
About the successful student

We expect all students to be punctual, responsible, reliable, curious, and willing to listen to advice and act on feedback.

You must also be available for all of the days during the placement week.

**Ideally interested in:** Biology

**Key skills include:** Attention to detail, proactive, inquisitive

What you will need

**You will need to bring**
- Closed-toed shoes
- A positive attitude

**We will provide**
- Lab coat
- Protective eyewear
- Gloves
- Computer access
- Free lunch at the Institute (up to £10 per day)
- Transportation reimbursement (receipts required, up to £50 per week)
